About Me

Data-driven Analyst with 4+ years of experience in banking and financial services, transforming business and customer data into actionable insights. Skilled in SQL, Python, and Tableau, with hands-on expertise in data exploration, reporting, and performance analysis across large datasets. Experienced in leveraging AI tools to accelerate analysis, automate reporting, and enhance decision-making. Proven ability to identify trends, uncover growth opportunities, and translate complex data into clear, business-driving recommendations.

Working Experiences

Business Intelligence Analyst, PT Allo Bank Indonesia Tbk (Allo Bank) Aug, 2023 – Present

An all-in-one digital banking company within the CT Corp ecosystem, delivering innovative and integrated financial services to enhance customer engagement and experience

- Analyzed transaction patterns using SQL and Python to increase monthly transacting users (MTU) on QRIS products by an average of 10% per month, supporting targeted product initiatives.
- Evaluated 20+ marketing campaigns using Python to assess cashback program effectiveness, delivering data-driven recommendations that improved campaign ROI and increased user engagement by 10–15%.
- Built interactive dashboards using internal dashboarding tools to monitor key metrics (GMV, churn, retention, bindings), enabling stakeholders to track performance in real time and make faster, data-informed decisions.

Data Analyst, PT Indozone Media Indonesia (Indozone) Sep, 2022 – Aug, 2023

An Indonesian digital media company delivering pop culture, entertainment, and lifestyle content for Gen Z and Millennials across social media and website channels.

- Analyzed website and Instagram traffic using Google Analytics, combined with SEO data from Ahrefs and SEMrush, to identify media trends and inform editorial content strategy.
- Built a real-time performance dashboard using Google Analytics 4 to monitor content traffic, enabling the editorial/content team to accelerate content decision-making to 30–60 minutes during viral moments and drive page views to 1M+ per day.
- Utilized OneSignal (CRM platform) to design targeted push notification campaigns, increasing user engagement by 5% across Indozone's website and social media platforms.

Education

Petra Christian University, Surabaya Aug, 2017 – Jul, 2021

GPA: 3.07

Bachelor's Degree of Industrial Engineering

Studied foundational concepts in statistics, data analysis, and systems optimization, building a strong analytical foundation in process improvement and data-driven decision-making.
